Professional Summary

Results-driven Business Analyst with experience in Capital Markets transformation, regulatory application migration, and technical business analysis. Skilled in requirement gathering, BRD/FRD preparation, source-to-target data mapping, SQL validation, UAT, and cross-functional collaboration with development teams across Java microservices, Spark, and Azure Data Lake environments.

Academic Credentials

MBA in Business Analytics and Finance Feb 2024 – May 2025
Kristu Jayanti College, Bangalore CGPA: 7.88/10

Professional Experience

Société Générale June 2025 – Present
Business Analyst, Bangalore, India

Business Analysis

- Contributed to a $40M regulatory trade-processing transformation program, supporting application migration by converting legacy business logic into reusable transformation templates.
- Transformed and validated data from 18 upstream systems (130+ attributes, 60+ controls) and integrated feeds from Fidessa, LoanIQ, LoanNet, and GMI (Newedge) to ensure compliant data migration.
- Proactively collaborated with development teams, gaining hands-on exposure to UAT, Azure workflows and logic-to-template transformations, guiding improvements that increased development efficiency by 34%.
- Bridged business stakeholders and technology teams by preparing BRD/FRD documents, mapping documents and process flows, and conducting walkthroughs for development, testing and business teams.
- Designed source-to-target data mapping and transformation logic, improving validation efficiency and boosting delivery productivity by 83%.
- Demonstrated Capital Markets domain expertise across Equities, Bonds, FX, and Derivatives while mapping reference data domains such as OTC, Client/Counterparty, Listed Instruments, Cash Loans and Downstream Systems.

Technical Analysis & Development Collaboration

- Worked alongside developers to understand Java Spring Boot microservices, Spark-based processing, and Azure Data Lake architecture supporting regulatory transformation initiatives.
- Reviewed JSON-based business rules, transformation logic, and source-to-target mappings to ensure accurate implementation of functional requirements.
- Supported end-to-end testing by validating APIs, SQL outputs, and data transformation results across multiple upstream systems.
- Collaborated in deployment readiness activities by validating business scenarios, identifying functional gaps, and supporting production releases.

Projects

Impact of Trade Payables on Enterprise Value Completed
Microsoft Excel, Word and EViews

- Performed descriptive, ratio, regression, correlation, and gap analysis to study financial patterns and trends.
- Evaluated the effect of payables management on EV/Net Sales and EV/EBITDA ratios.
- Conducted comparative analysis of trade payables to identify inefficiencies and opportunities.
- Provided actionable insights to optimize working capital and enhance overall enterprise value.

Bank Loan Portfolio Analysis Dashboard
SQL & Power BI

- Built a Power BI dashboard to track loan KPIs such as applications, funded amount, repayments, interest rate and DTI.
- Used MS SQL Server queries to analyze loan data, borrower profiles and loan status.
- Evaluated good vs bad loans and regional trends to generate insights on portfolio performance.

Skills Summary

- **Languages:** SQL, Python
- **Frameworks/Platforms:** Pandas, NumPy, Matplotlib, Jupyter Notebook, Oracle SQL
- **Tools:** JIRA, Lucidchart, Confluence, MS Office Excel, Power BI, DBeaver, Visual Studio, Git Extensions
- **Soft Skills:** Rapport Building, Stakeholder Management, Communication

Certificates

- BA & Cognos Analytics Professional (IBM)
- SQL for Data Analysis (Udacity)
- Lean Six Sigma Certification – Green Belt (KPMG)
- IOA Student Member
- J.P. Morgan Investment Banking Job Simulation (Forage)

Leadership & Achievements

- Led a team and emerged as winner in Analytics and Operations Event (Talento – Intra Collegiate Fest).
- 1st Place in Business Plan Competition (Ventura 2024).
- Serving as a volunteer in Dhatri Patra Foundation.
- Participated in National Level MDP and International Lecture Series on Leadership & Values in Life.
